EXPERIENCE

General Assembly | New York, NY | **Aug 2015 – Oct 2015**
Web Development Immersive | Full Stack Developer

BlinkedIn
Web application to showcase GA alumni (inspired by LinkedIn)
- Accessing alumni profiles required a database search feature using React, JSON, SQL
- Conducted development and verified readiness of web application with Heroku
- Visualized data site usage on homepage using chart.js

Codiki
Rails web application to help developers find practice activities
- Tracked users login through sessions using Bcrypt
- Informed users of updated articles through mailer implementation using SendGrid
- Allowed readabilty by converting user input to Markdown using Redcarpet

Searchster
Music and movie search engine
- Generated dynamic search results using AJAX calls to OMDB and iTunes APIs
